Two different worlds with two completely different people and cultures at war. Barney Freeman, U.S. Navy, with one major asset; he was very fluent in the Japanese language, thanks to a high school friend who was American Japanese. Myoko, a young and very beautiful Japanese lady who had become caught up in the dictates of the Japanese military because she rebelled against what she felt was the destruction of the historical Japanese culture. Myoko and her husband, in order to try and escape his being forced into the military, retreated to a very remote unspoiled small valley on the southwestern side of the island of Kyushu. The last major island of Japan. In late 1944, events allowed Barney and Myoko come together. Through some of the most difficult times for America and the total destruction of Japan, Barney and Myoko began a journey that would last the rest of their lives.
