

## A Three Hundred and Sixty -Degree Perspective: A Mother - Daughter Journey of Come Here Meets Been There

This book will make you giggle and brush away a tear or two as you take a revealing journey into the extraordinary sacred relationship between a mother and daughter. This journey is made more special because it is an adult daughter and mother. As you read the book, it is like eavesdropping into the lives of two incredible women as they share their parallel stories. I recommend this book be read by mothers and daughters together because there is tenderness the mother can share about being young, in love, vulnerable, passionate and private dreams. For the young ladies who are not yet an adult, read this book as a primer to the legacy that awaits you and the relationship you will discover with your mother as an adult daughter . . . This book is like a great comforter on a chilly night. It makes me long for the adult relationship I never had with my mother who died when I was 11 years old.
