

ALL FOUR CHAPTERS: My First Forty Years

Growing up in dysfunction was not easy for Staci Marinez, as the family moved from state to state in a series of doomed attempts to put the past behind them. Yet if that sounds like depressing reading, nothing could be further from the truth. In this frank, fearless and often funny memoir, Staci recounts her saga of trauma, dysfunction and abuse with the same irrepressible energy and humor that have helped her to survive it all. The US Army was her lifeline into adulthood, and the years that followed brought love, marriage and the joy of motherhood. But her troubles were not over yet, and she embarked on a roller-coaster ride of ups and downs that brought divorce, bereavement, relationship difficulties, bankruptcy and depression. A strong woman with an unquenchable thirst for life, Staci picks up the pieces once more and builds a new life for herself and her beloved daughter. Wise, generous and forgiving, this heartwarming narrative will appeal to all those who have had to wrestle with life's challenges and disappointments, who have loved and lost, and who have wondered what it was all about. Its message is clearly inspiring: as long as we remain willing to admit our mistakes and to learn from them, we can rise above the setbacks to achieve acceptance, self-knowledge and happiness.
