

Dark Flag

When an old university friend is murdered in Copenhagen, Sam Webster is determined to uncover the truth of what happened to him, and to unearth the conspiracy which might have played a part in his death. The Danish police don't want Sam to get involved, the CIA want him out of the city, but what none of them knows is that Sam is perfectly placed to uncover such a crime, because creating conspiracies was once his job. This time, though, even Sam might be out of his depth - is it possible that his old friend's death is linked not just to a conspiracy, but to the biggest news event of this century...? Kevin Wignall is the author of five novels, including the Edgar-nominated *Who is Conrad Hirst?*, and *For the Dogs* which is currently being turned into a movie. www.kevinwignall.com
