

## The Cancer Table

A memoir of selected moments in the life of Dawn Richards and her battles with cancer, *The Cancer Table* looks at many aspects of Dawn's life, including her childhood in an Italian family, raising three children on her own, her nursing and retail careers, public speaking successes and battles with breast cancer. At times sad, at times funny, always poignant, *The Cancer Table* is a personal journey of not just surviving, but thriving, in the face of adversity.
