

## Murdock Cracks Ice (Matt Murdock Murder Mystery)

A deadly killer has iced Rollie Nielsen, a smart college kid with a brain for chemistry, and his dad wants to know why. Enter Matt Murdock, a tough-and-tender PI who is willing to get his hands dirty in search of the truth. Rollie had a weakness for classy women and easy money, a combination that led him to found a drug lab. No one knows exactly where he was working and what he was cooking—presumably ice, the street name for methamphetamine hydrochloride. Rollie pissed off a lot of bad guys on both sides of the law, who are busy messing up Murdock's already messy life. Leaving behind a few bodiesome of them friends Murdock departs smoggy Newport Beach, California, for cloudy Seattle, Washington, where he hopes to unearth Rollie's lab. With the help of wannabe detective Louie Chen and a sexy female acquaintance of Rollie's, he just might succeed and find a little romance along the way. That is, if he can keep his hide in one piece. Not easy, when you've got the biggest drug kingpin in Seattle on your tail.
