

Im Jesse

Going home is more than a journey in miles. Its a journey through time, guided by memories. When thirty-four-year-old Jesse returns to her childhood home in Minnesota for her mothers funeral, she travels back to a dark past that dictated her cloudy present. Jesses story is not only pulled from her memory but from diaries she kept and hid from the time she was eight through the time she turned twelve. As she struggles to read the pages, she journeys through her loneliness, insecurities, despair and heartache. She resolves that if she could deal with what she had to endure then, she certainly had the courage to relive those experiences. In facing the darkness of her past, she realizes a healing self-awareness that begins to free her from the haunting shadows of her early years.
