

## Your Body Is Changing

Glittering with mischief and perversity, Pushcart Prize-winner Jack Pendarvis's latest collection introduces readers to a world of dreamers poised on the brink of all sorts of disaster a world only a wink and a nod away from our own. In the title novella a fundamentalist teenager must single-handedly confront the challenges of a spiritual quest involving secular humanists, an apocalyptic folk artist, and his own misguided hormones. The other stories deal poignantly with among other things a young millionaire pretending to be a detective, the good folks who invented the diarrhea-inducing chewing gum, and a tollbooth operator who becomes an impromptu drug mule. Underlying each comedic gem and neurotic twist is an intelligence and empathy rarely found in modern satire. *Your Body Is Changing* will invite you in with its zany humor and indict you with its moving truths.
