

The Crack House

The Crack House tells the story of a young man from Detroit desperately trying to find an escape. Without suitable role models in his life, he has to adapt to his environment and raise himself. With the odds stacked against him, he calculates his every move. All in order to make a better life for himself. Everything society required of him to be successful, he did. However he discovers that doing things by the book simply isn't enough. No matter how pure you are at heart, you still get sucked in by the city's influence. It tells the thrilling, tragic, and heartbreaking tale that shows the transformation from normal loving boy, to hardened criminal.
