They have come down to us in various forms and have inspired writers including Goethe, the Brothers Grimm, Andersen, George Sand, and numerous others so that the literary fairy tale keeps

thriving and makes itself felt not only through literature in remarkable works by such contemporary authors as Angela Carter, Margaret Atwood, Michel Tournier, Robert Coover, Michael Ende, A. S. Byatt, Jane Yolen, and others but also through stage adaptations, radio programs, films, tv shows, and Internet sites. The best of the contemporary fairy tales also keep alive the utopian quest and the questioning spirit of the earlier salon tales. Written out of dissatisfaction with their times, these fairy tales still have a unique charm, something captivating that is not confined to the particular historical period in which they were conceived and written. They embrace the future. They anticipate hopes and wishes that we ourselves have yet to fulfill. In that sense, they are still modern, and who knows? ... may even open up alternatives to our postmodern dilemmas.
